

PRESS RELEASE

NEW DVD FROM TRICKSHOT - 'NO CHOICE - SPECIAL EDITION'

Date 23/09/2005

Trickshot is proud to release their action packed short film on to DVD for the first time! Practically a year in the making, the No Choice special 'high calibre' edition DVD was put together alongside the stunning Grave Matter package and more than matches it in terms of content and quality.

No Choice is a short film which was originally made in 1999. For this 5th anniversary DVD (yeah, we planned to release it last year!), we have lovingly remastered the original hi-band analogue tapes into a high quality digital format for DVD mastering. We have also packed the DVD with over an hour of material including new cast interviews recorded in summer 2004 and an exclusive bonus short film from the very early days (1996 - pre-Trickshot!). It's an absolute must have for fans of independent film and aspiring low budget film-makers alike.

The story... Jim (Andrew Kirk, from rock band Motel Hero) is a man with a mission - a mission that brings him into conflict with his former friend and now bitter rival, Roy (Nick Kirk, from the Trickshot film Eightball). Now, in order to protect supergrass Lloyd "The Mouth", the two must play a deadly game of cat and mouse - with dire consequences.

The full list of extra features is as follows:

- Full uncut digitally remastered version
- Writer and director's commentary
- New interview with the main cast
- Storyboard to screen comparison
- Behind the scenes featurette
- Teaser trailer, plus Eightball and Grave Matter trailers
- Photo gallery, Music video - Evacuate Soul
- Easter egg (bonus short film from Trickshot)
- English subtitles and interactive menus
- DVD Rom special feature: PDF first draft script fragment

We would like to thank acclaimed drum n' bass DJ Keltech for contributing the DVD soundtrack and kindly permitting use of his music video 'Evacuate Soul'. Check out his hilarious scratch mix video of the **War of the Worlds** theme at [DJ Keltech.com](http://DJKeltech.com).
